

# Supplementary material

**Gathering insights on disease etiology from gene expression profiles of healthy tissues**  
*Silva et al.*

## Contents

### *In this file*

Figure S1: Correlation between correlation coefficients obtained using the Pearson correlation and the Jackknife correlation

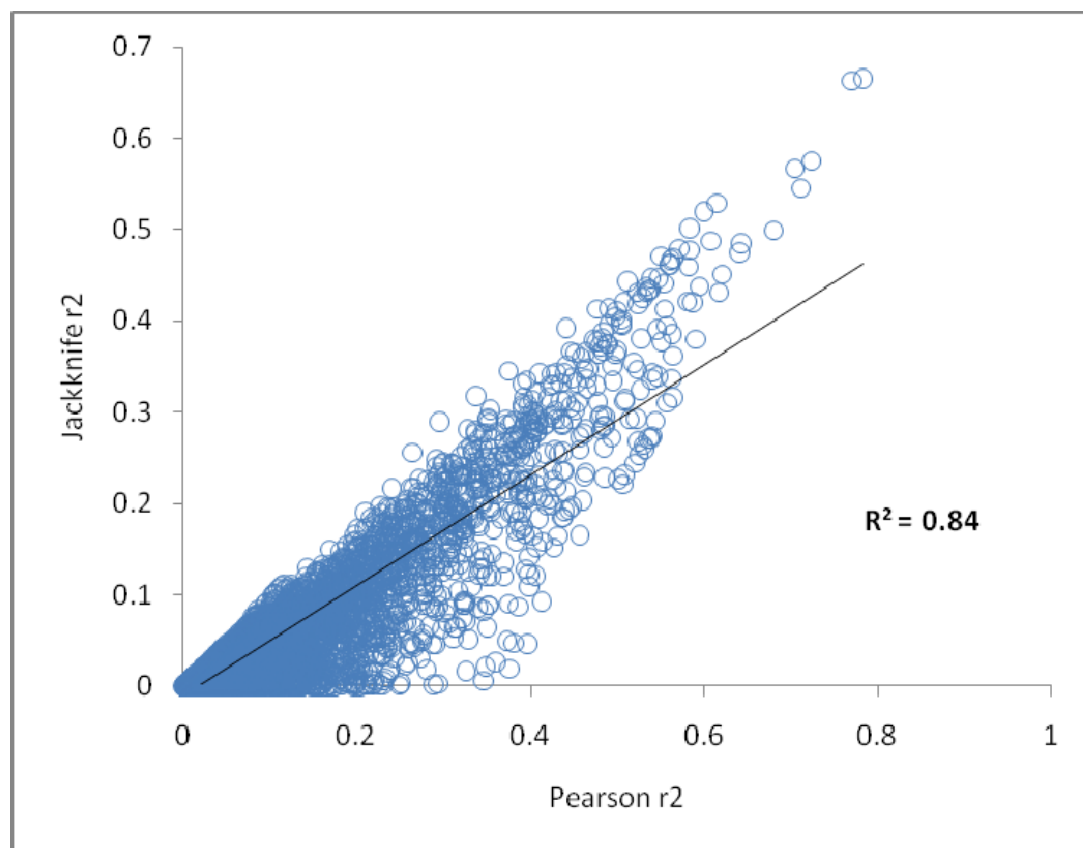

Figure S2: Correlation between organ-specific cancer incidence and organ weight

### *In accompanying Excel file*

Table S1: Organ-specific mass-normalized cancer incidence

Table S2: Significant probes at  $p < 0.05$  with Benjamini-Hochberg correction

**Figure S1: Correlation between correlation coefficients obtained using the Pearson correlation and the Jackknife correlation**

**Figure S2: Correlation between organ-specific cancer incidence and organ weight**
